

FAN EVAPORATIVE AIR COOLER EEC168

Remote Controller

LCD Controller

SPECIFICATION

Model	EEC168
Max AirFlow (m ³ /h)	8000
Fan Type	Axial
Pressure (Pa)	80
Speed	3
Power (kW)	0.38
Noise (dBA)	≤ 62
Voltage / Frequency (V/Hz)	220-240 / 50
Rated Current (A)	1.8
Outlet Dimension (mm)	625 x 640
Pads Dimension (mm)	(685 + 30) x 640 x 100 (685 + 30) x 200 x 50
Overall Dimension (mm)	800 x 480 x 1380
Water Store (L)	57
Net Weight (kg)	31
Gross Weight (kg)	34

FEATURES

- Bigger airflow, higher pressure, good for outdoor and commercial area use.
- Fashion and elegant design with big air grill, All white vent, exquisite and good taste.
- The modified PP material of body is more adaptive for outdoor use, and more durable.
- High quality & whole sealed casing motor, good heat dissipation, high IP class & waterproof.
- LED control panel with remote control, convenient and intelligent.
- Open type water distributor makes the water flow evenly.
- Ionizer helps to dedust and anti-bacteria, keep air fresh.
- 3 sides cooling pads, better cooling efficiency.
- 57L big water tank meets customer need.
- High-Mid-Low 3 speeds, more choices.
